

Application to Serve on the Commute Options Board of Directors

Our Mission: Commute Options increases access to transportation options across Oregon.

The purpose of this application is to better understand the interests, skills and qualifications of individuals interested in serving on Commute Options’ Board of Directors. Information provided by applicants is confidential and will be shared only with the Board and executive leadership team.

Our process for selecting new members of our Board of Directors includes the following steps:

1. An initial phone call with prospective applicants to assess their level of interest in serving on the Board.
2. For those want to learn more, we send them this application and our strategic plan.
3. Those still interested submit this application and next meet with our adhoc nominating committee. Then, interested applicants that are a good fit with our organization and its needs, will have their application considered by the full Board for election to a two-year term at its next Board meeting.

Please email your application to: Marshall Greene, Board Chair at boardchair@commuteoptions.org
